SUMMARY

Front-End Developer skilled in HTML5, CSS3, JavaScript ES6+, React.js, and RESTful APIs. Experienced in responsive web design, cross-browser compatibility, and Agile methodologies. Proven ability to build and deploy production-grade web applications using Firebase and Git. Strong understanding of UI/UX principles and performance optimization.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Responsive Design

Backend: Java, Core Java, JDBC, Servlets

Databases: MySQL, Oracle

Tools & Platforms: Firebase, Git, GitHub, Visual Studio Code

Programming Concepts: OOP (Object-Oriented Programming)

EDUCATION

Godavari Institute of Engineering and Technology, Rajahmundry, AP BTech in Computer Science (AI & ML) | CGPA: 7.5/10 | Expected 2026

PROJECTS

Bank Account Simulator (Core Java)

- Developed a Core Java **Bank Account Simulator** with deposit, withdrawal, and balance inquiry features, ensuring robust input validation and exception handling.
- Packaged and deployed the application as an executable **JAR file** for cross-platform compatibility and easy distribution.

Github- [Tirth443/BankAccountSimulator](https://github.com/Tirth443/BankAccountSimulator)

Recipe List Web App (React.js)

- Built a responsive user sign-up interface using React.js, implementing real-time client-side validation, which reduced form input errors by over 90% during testing.
- Managed login/logout flow using React Hooks and implemented input form checks for credentials like email, password, and contact details and field completeness, enhancing user experience and data integrity.

Deployed on Firebase: <https://recepies-e03fd.web.app/>

Sign-Up Page with Authentication (React.js & Firebase)

- Created a user sign-up form powered by live client-side validation through React.js, and integrated Firebase Authentication to manage secure user registration and session handling.
- Integrated Firebase Authentication to handle secure user onboarding and session persistence, handling 100% of user authentication without third-party tools.

EXPERIENCE

Artificial Intelligence Trainee | AIMERS (Remote)

Engineered object detection model using YOLOv8, attaining 92% accuracy in simulated dataset object identification; established a solid framework for future real-world application development and refinement.

INTERN | INTERNZ LEARN (Remote)

Completed a 3-month remote internship focused on Generative AI, gaining hands-on experience with large language models (LLMs), prompt engineering, and model fine-tuning.

Developed multiple AI projects using Hugging Face Transformers, LLaMA, and deployed interactive applications via Streamlit.

CERTIFICATIONS

AWS Cloud Practitioner – APSSDC – Mar 2025

SQL – AH Career Academy – Jan 2024

Oracle Database – AH Career Academy – Feb 2024 Graphic Design – Learn Tube

– Dec 2023

ADDITIONAL SKILLS

Development Tools: VS Code, Chrome DevTools

Soft Skills: Communication, Teamwork
